

INSTAR CORPORATION

Wiresoft Produces Quantifiable Results for an Insurance Company

The Problem:

Instar is an insurance company with an installed client base of over one thousand subscribers. They were receiving approximately 1,500 spam messages a day which resulted in a significant loss of productivity. Spam slowed down the transfer rate of data on Instar's network and negatively impacted their ability to quickly respond to the needs of their customers in a timely manner.

The Wiresoft Solution:

With the installation of the Wiresoft Sentry Professional Security Platform, Instar experienced several positive results:

- Spam went to zero.
- The speed of Instar's internal network increased significantly enabling them to respond promptly to customer inquiries.
- Instar measured a 5% productivity increase over a 90 day period.
- The net result of the Sentry installation was a projected annualized savings of over \$28,000 in improved productivity as measured internally by Instar – several multiples over the cost of the Wiresoft Sentry installation.

"The Wiresoft Sentry Security Platform delivered on their promise of increasing productivity"

Ken French

President & CEO

About the Wiresoft Sentry Security Platform:

Wiresoft Net, Inc. is a leading provider of network security solutions specifically designed for small- and mid-sized businesses. The Sentry Security Platform is a four-in-one problem solver, offering complete protection and freedom from business interruption with an impenetrable firewall, anti-virus defense, spam blocking and VPN connectivity. Built upon proprietary artificial intelligence technology, the Sentry Security Platform monitors your incoming and outgoing traffic 24/7/365, while continuously performing automatic virus and system updates. The complete, multifunctional and expandable enterprise-level network protection ensures your network remains healthy and secure, all the time.

The Sentry Security Platform has undergone rigorous performance testing by The Tolly Group, the IT industry's leader in software and hardware evaluation. A downloadable report of the professional assessment is available at www.tollygroup.com or on the Wiresoft Internet web site.
